Periodontitis and Infertility: An Evidence-Based Review

Published On: October 14, 2016 | Pages: 011 - 015

Author(s): Mariana Fampa Fogacci *, Davi da Silva Barbirato , Monique Oliveira Rodrigues,, Cristine da Silva Furtado Amaral, and Denise P Carvalho

Periodontal diseases are initiated by a pathogenic biofilm, in a susceptible host, affecting the tooth periodontium. Its possible association with many biologic systems has been studied. In this evidence-based review, a comprehensive literature search was carried out to assess if there is an association between periodontal diseases and female infertility. ...
