Prediction of Premature Ovarian Insufficiency and prevalence of medical diseases

Published On: September 16, 2019 | Pages: 019 - 022

Author(s): El-Jabu H*, Elfortia I, Andisha A, Gerriw B, Ben-Saleh H, Abukail R, Mlitan H, El-Gomati E and Elmahjoob E

POF can be considered as an end stage of multiple disorders that ends by loss of ovarian function [1]. However, there are other terms that include POI, when the condition is different because there may be intermittent and unpredictable resumption of the ovarian activity [2]. ...

Statistical analysis of early marriage among women in Ethiopia by using multilevel logistic regression

Published On: April 16, 2019 | Pages: 001 - 009

Author(s): Tezera Abebe Gashaw*

Early marriage is still widely practiced in many parts of the world mainly in Latin America, the Caribbean, Southern Asia and countries of Africa. Ethiopia has one of the highest rates of early marriage in Sub-Saharan Africa. The main objective of this study was to identify determinants of early marriage among women in Ethiopians and to examine variations in early mar ...

Impact of Oxidative stress on Infertility, with emphasis on infertility management

strategies

Published On: August 02, 2019 | Pages: 010 - 018

Author(s): Pamela Banerjee* and Jayashree Bhattacharya

Oxidative stress (OS) is a state of imbalance between pro-oxidants (Reactive Oxygen species and Reactive Nitrogen species) and antioxidant defences. It plays a pivotal role in infertility issues (paternal as well as maternal). ...
