Clinical evidence in Troilism (Polygamy and Polyamory): Definition, psychological profiles and clinical implications

Published On: August 07, 2021 | Pages: 073 - 079

Author(s): Giulio Perrotta*

Purpose: Starting from the psychopathological hypothesis of ‘Troilism’, just like ‘Cuckolding’, correctly framed (the latter) as a paraphilia, the present research aims to identify the clinical evidence capable of confirming the initial hypothesis, trying to identify the possible aetiological causes. For the purposes of this research, other possible causes that are no ...

Pregnancy and childbearing among Adolescents and Young Persons Living with HIV: The Case of Chitungwiza, Harare

Published On: July 30, 2021 | Pages: 067 - 072

Author(s): Norman Makunika* and Lianora Manyange

It is almost four decade into the HIV pandemic, the outlook of the disease has advanced significantly from death sentence to a chronically manageable disease that can be lived with for long time. This evolution was made possible with the advent of antiretroviral therapy which allowed HIV infected children to reach adulthood. However, sexual, and reproductive needs of ...

Practices regarding modern contraceptive use among female students. A comparative study between the university of Zimbabwe and Chinhoyi university of technology, Zimbabwe

Published On: March 31, 2021 | Pages: 022 - 035

Author(s): Toweka Andrea*, Moyo Stanzia, Mhloyi Marvellous, Makochekanwa Albert and Mandizadza Enock

Modern contraceptive use prevents the risk of unplanned pregnancies, unsafe abortions and STIs. Yet little is known about the use of modern contraceptives by female students in tertiary institutions given that available studies have been using women in the reproductive age as the unit of analysis. The study was conducted at the University of Zimbabwe and the Chinhoyi ...
